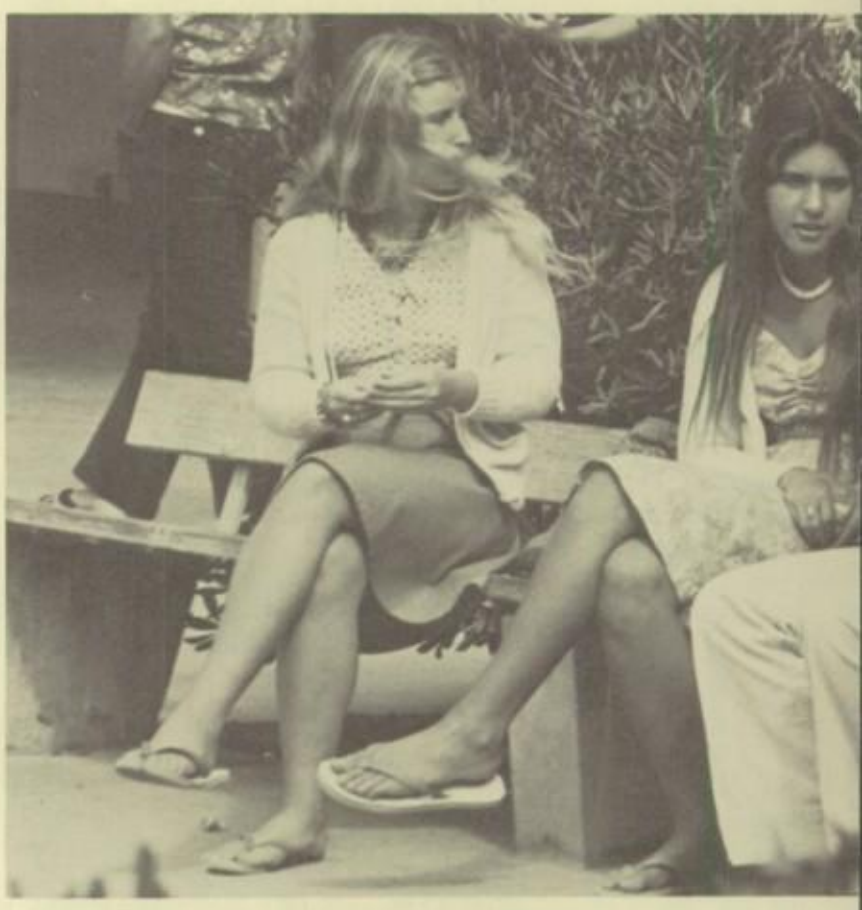
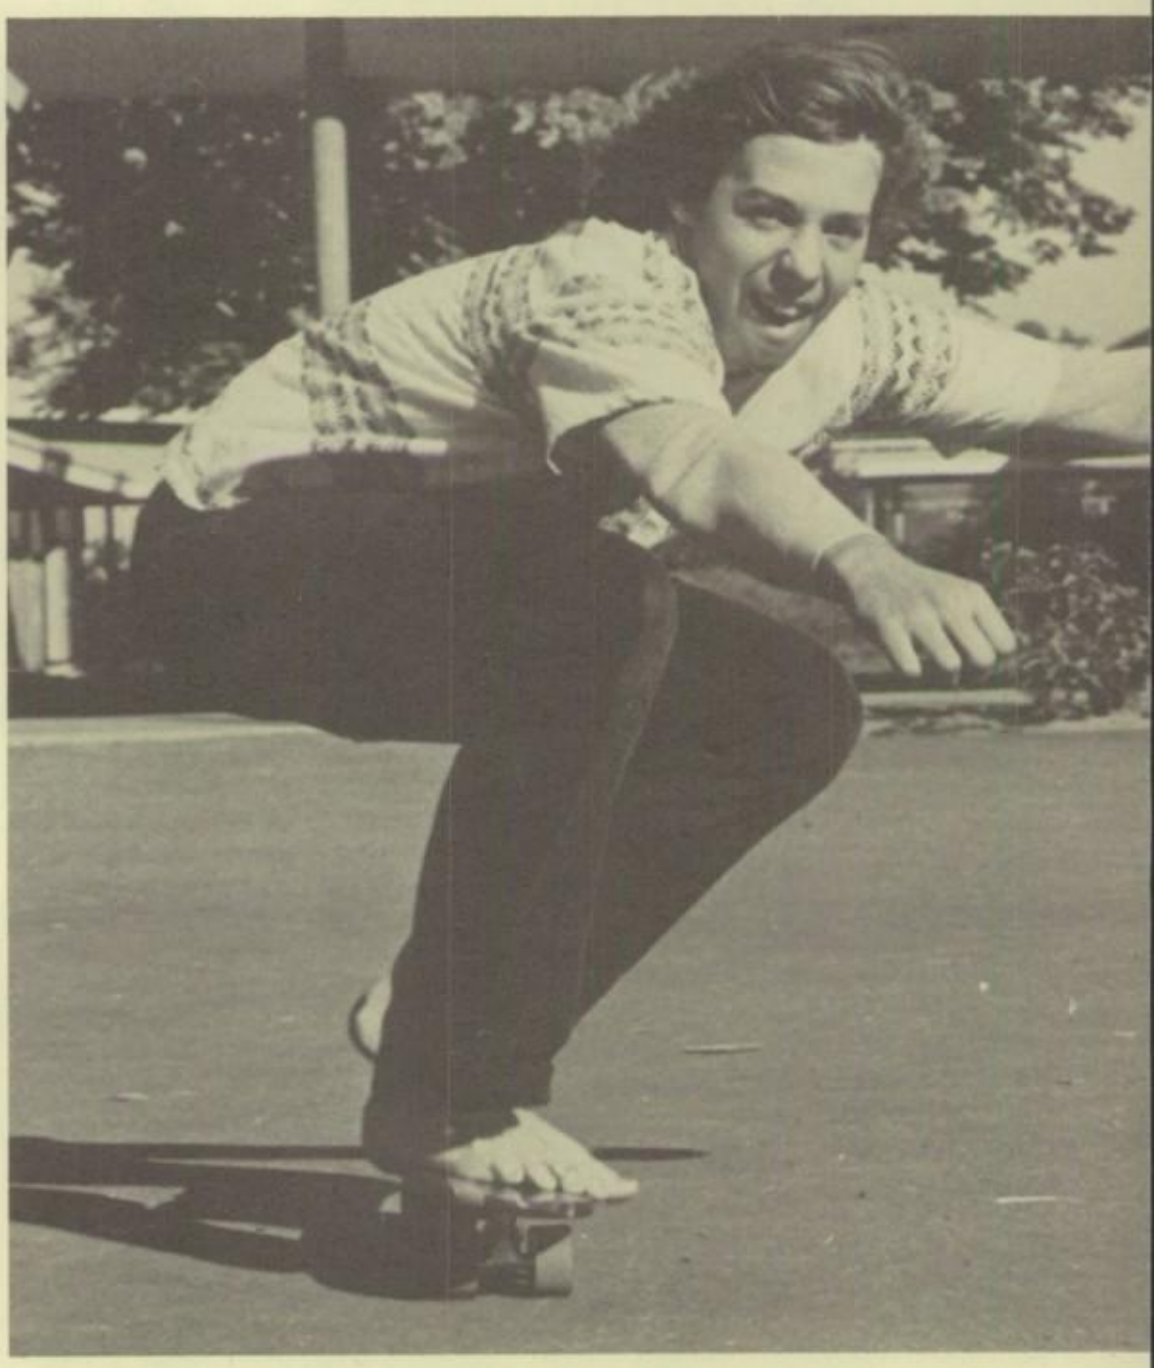
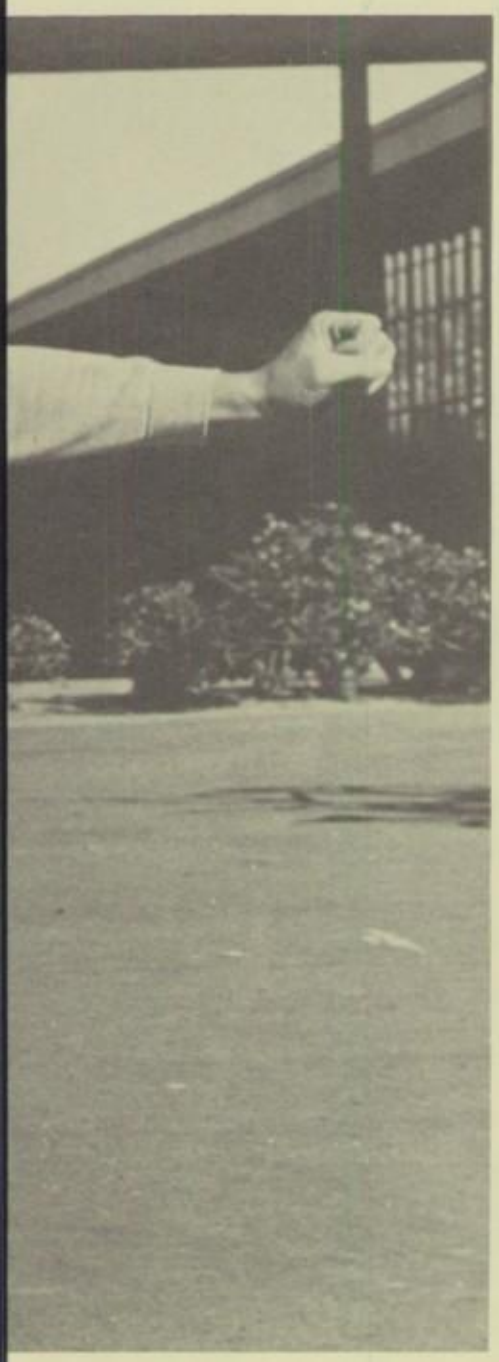
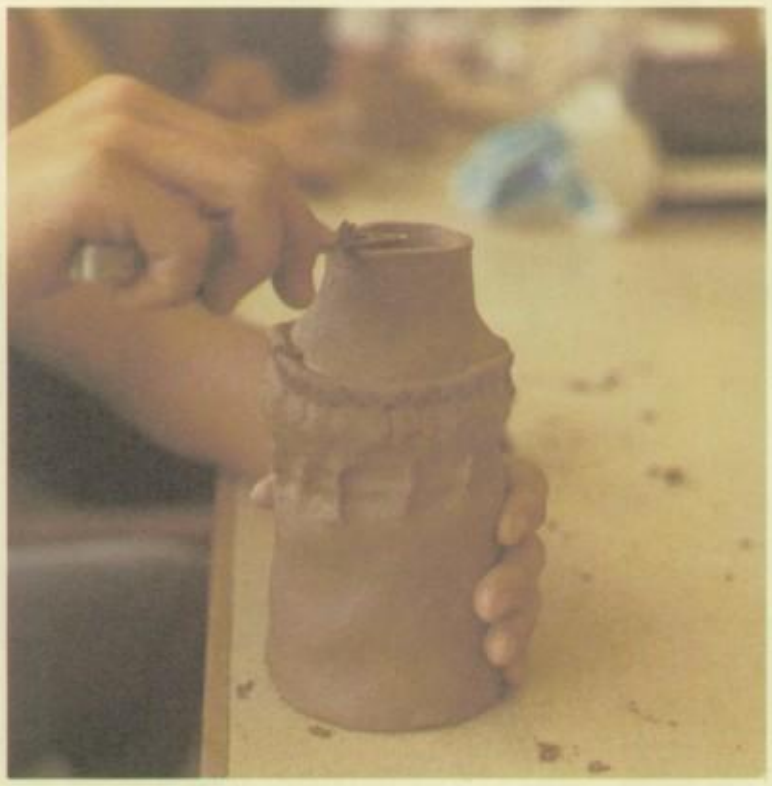
It may not be held in one's hand, rather felt in one's heart.
People who possess it take it for granted.

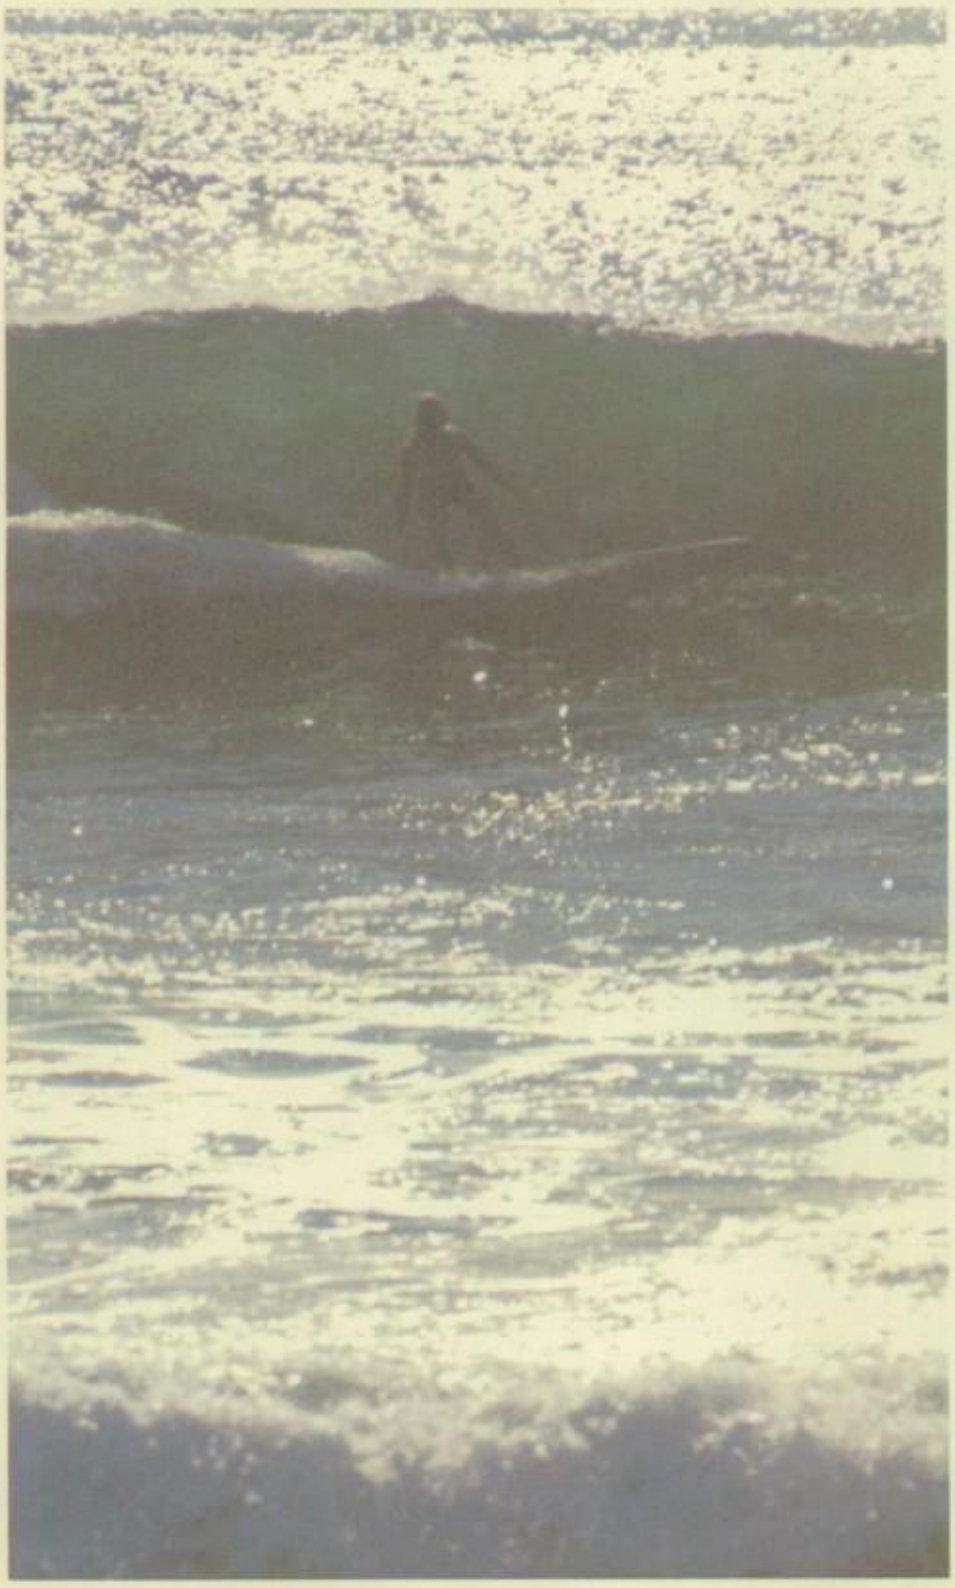
It is not to be ignored, for one may lose it.
It is something that cannot be given out, it must be earned.
Appreciate its preciousness; in our world it is rare.

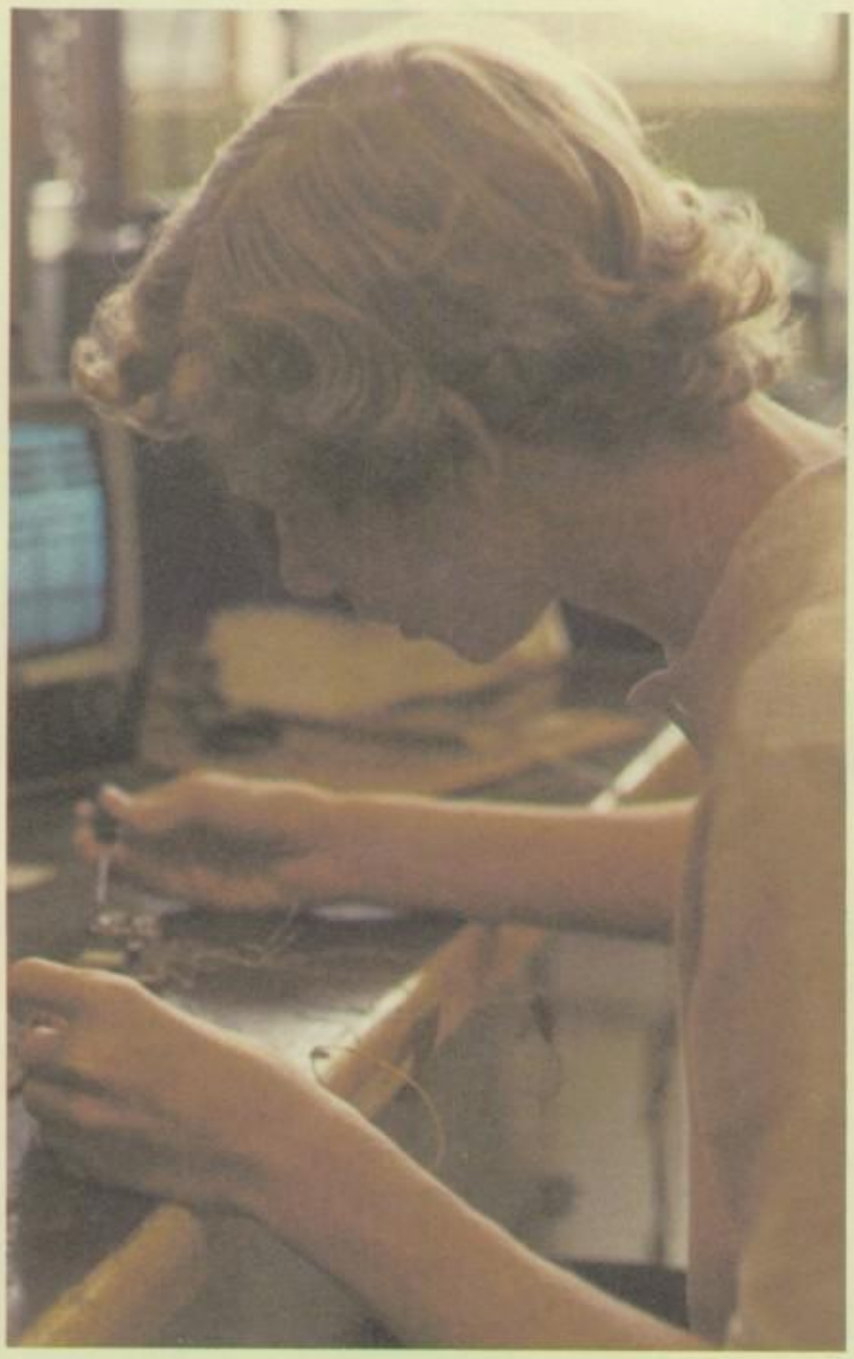




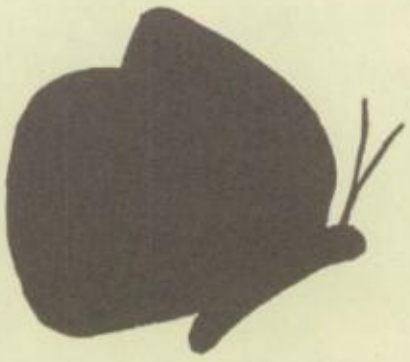








Some who knew the importance
of it gave their lives so others
may experience it.
Yet a person cannot find it
through others, if he does not
first find it in himself.
. . . freedom . . .



Jim,

It's been fun knowing you. Your a nice person. funny We didn't know each other sooner, since we live on the same block. ok. well, Good luck in the years to come. I hope life turns out the way you want it to.

INSPIRING

PRINCIPAL'S MESSAGE

The "Class of '75" is one of the most outstanding classes to graduate from Mission Bay High during the twenty-one year history of the school. Seniors have excelled in curricular areas such as language arts, social-science, mathematics, science, fine arts, practical arts, and physical arts. Also, twelfth grade students have performed exceptionally well in co-curricular programs including boys and girls athletics, drama activities, music events, forensic competition, school publications, school clubs, and student government. Buccaneers have carried forward the fine traditions of preceding classes and have set remarkably high standards for succeeding classes to try to emulate or exceed.

Seniors, your dedicated teachers and devoted parents have prepared you very well for the challenging world of the future. Use the knowledge and skills which you have acquired to help make your community state, nation and world a better place in which to live.

In your own way, dedicate yourself to help solve some of mankind's challenges related to human relations, equal opportunities for all groups, inflation, ecology, energy crisis, political corruption, and international relations. I am confident that your generation with its high potential will resolve some of the problems created by preceding generations.

Congratulations for earning your high school diploma. I hope and pray that your future will be filled with good health, happiness, success and peace. The staff and I will miss you very much and remember you and other members of the Class of '75 forever.

1957-1974

If I could save some part of you,
it would be this day:
 this hour would do------
Your eyes alight with such surprise
to see how spring
 can change the sky
and touch the trees
 and find the flowers.

If I could save this day,
it would be you
 that I'd remember
 every spring
when snow is left in patches on the ground
and flowers, like the ones you found,
 are reaching for the sun.

I would remember part of you
 this way:
 spring is to begin.

This is to some dweed[2] who was on the wrestling team, but its cool. Mission Bay should have a pretty good wrestling team next year of the '75-'76 season. This is from a good friend, lightweight wrestler to a good friend, heavyweight wrestler.

Your pal,
